

The background of the slide is a close-up, slightly blurred image of the American flag, showing the stars and stripes in a wavy pattern. The colors are vibrant, with a deep blue field for the stars and bright red and white stripes.

Energy Security = National Security

An Introduction to Vets4Energy

Speaker: Rear Admiral Don Loren, USN (ret.)
Vets4Energy National Liaison

Host: Capt. James McCormick, USA (ret.)
Vets4Energy Program Director

Vets4Energy
*Veterans Working to Ensure
National Security through Energy Security*

- **Non-partisan group of volunteer veterans across all 50 states**
- **Advocate for sound energy policies to sustain our national security**
- **Believe Energy Security = National Security**

Energy, Economy, Diplomacy and National Security are Inextricably Linked

- Protects America's global energy leadership as world leader in oil and gas
- Strengthens U.S. economy
- Reduces reliance on undemocratic nations
- Secures our allies
- Increases military strength

- Energy is a global necessity and commodity
- Promote energy conservation and efficiency
- Develop all forms of energy, but recognize oil and natural gas still required for decades
- Renewable energy still maturing, and expensive for mass deployment
- Economic and national security tantamount
- Protect environment and climate

- **Vets4Energy State Chairpersons**
- **Partner with Veteran Service Organizations (VSO's) at state and national levels**
- **Advocate for sound energy policies**
 - **Veteran education**
 - **Meetings and correspondence with elected officials (local, state, federal)**
- **Promote careers for veterans**

- Veterans ideally suited for careers in the oil and natural gas industry
- “Great Crew Change”: the oil and natural gas industry could see up to 50 percent of its technical workforce retire in the next decade
- Long-term vision for veteran careers

Veterans Energy Pipeline

Welcome to Veterans Energy Pipeline, an on-line application designed to help connect veterans with top jobs in the oil and natural gas industry

Search by

Military Occupation

See how your military experience translates to a job in energy

Career Search

Search by

Civilian Occupation

Veterans have experience that add value to your business

Compare Experience

- Website to assist veterans to transition to careers in oil and natural gas industry
- Translates military skills to civilian skills in oil and natural gas industry
- Wide variety of skills and careers available in industry

- **Send a Letter to your Members of Congress to ask for Sound Energy Policies**
 - Go to Vets4Energy.com
